

# SONISTO / VISUAL IDENTITY

SONISTO

SONISTO

SONISTO

THE SONIC VAULT

## AUDIO PLUGIN PLATFORM

SONISTO is a Danish startup company - They are first movers within the music production industry, creating a free software platform for selling and handling audio plugins used by music producers all over the world. The name SONISTO comes from the combination of the words SONIC and STORE.

## THE DESIGN

The dynamic identity design is inspired by how audio plugins are used to alter and change sound waves. The separate parts of the custom designed logo is split up and used in a creative, rhythmic and transforming way throughout the design. Ocean waves are the inspiration for the SONISTO identity colour palette.
